

Midlands Excellence Awards 2010/11

Specialist Category - Sustainability

presentation by Directors

Dean Walton & Lee Summers

14th June 2011

Welcome to Alumet

Established 1993

Based in Warwickshire

**Satellite Offices West Midlands and
Yorkshire**

Employ over 100 staff

150 installers

Awarded Investors in People status

What we do

Alumet offer the design, manufacture and installation of full-façade solutions including:

- **Curtain Walling**
- **Windows**
- **Rainscreens**
- **Solar Shading**
- **Permanent Access**
- **Unique Bomb-Blast ABLE façade system**
- **Renewable technologies**

Recent local projects

Alumet

Avon Solar Control

**Alumet Avon
Solar Control
specialises in
Brise Soleil,
Solar
Shading and
Louvre
systems.**

Alumet Refurb

Specialists in complete refurbishment projects.

Transform tired buildings to look like new.

Buildings can remain occupied during building work.

Site based liaison teams ensure tenants issues are resolved quickly.

Sandwell, West Midlands

Before

After

Queen's Award 2004

We received our first Queen's Award for Enterprise: Innovation in 2004 for the development of our Avon Dry Wall Beam.

Alumet

ABLE Façade System

The ABLE Façade System (AFS) is a lightweight off-site constructed enhanced unitised façade system.

It is designed to withstand the effects of a bomb-blast.

It is the ideal alternative to heavy weight reinforced concrete.

Queen's Award 2009

In 2009 Alumet was honoured with the Queen's Award for Enterprise, Innovation category.

This accolade was due to the level of innovation demonstrated in the AFS.

It was the 2nd time in 5 years that Alumet has won the Queen's Award for Enterprise!

2009**

Alumet

Renewable Technologies

Alumet Renewable Technologies (ART) specialises in environmental energy solutions such as photo-voltaic panels.

Alumet

Renewable Technologies

**Alumet will
service the
domestic market
for the first time,
under the
trading name
EOS Energy**

EOS
energy

Have you switched
on to the power of
solar energy?

We make renewable energy easy by offering a complete service from design and planning, through to installation and aftercare.

BritSol System

We manufacture our own mounting systems for PV panels under the brand BritSol.

BRIT  SOL

5 year plan

Alumet aim to become one of the market leaders in the renewables industry.

Our target is to reach £100M turnover in 5 years.

Community support

As part of our community support, we are offering a 10% discount on any solar panel installation in a CV postcode area.

Environmental benefits of our products

Aluminium – The majority of our products are made from aluminium. This is a very sustainable product as aluminium can be recycled and reused an infinite amount of times without any loss of performance.

Environmental benefits of our products

Solar shading –
Our solar shading systems reduce the solar gain of a building, reducing the need for energy intensive air conditioning systems.

Environmental benefits of our products

Photovoltaics –
Our PV systems help to combat global warming by reducing the demand for power created by fossil fuels.

Environmental benefits of our products

Alumet Refurb – Our refurbishment division gives old buildings a new lease of life, preventing the need for demolition and rebuilding.

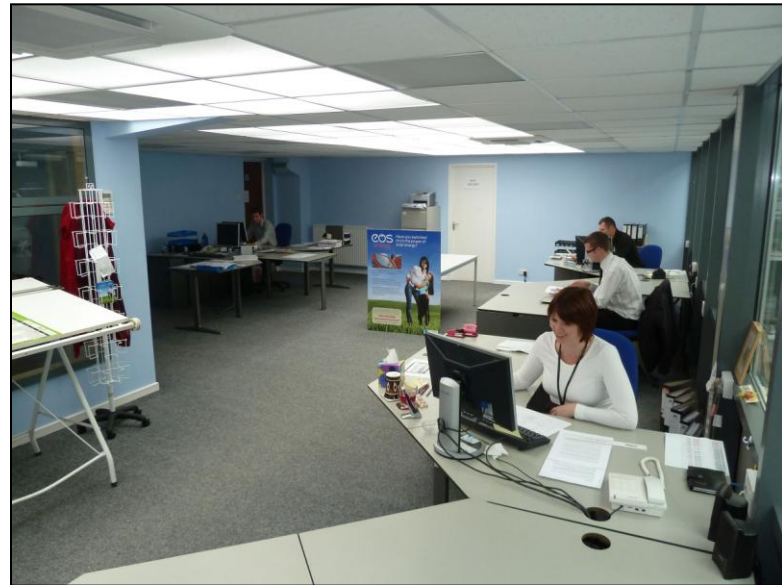

Staff expansion

Our new renewables division has already allowed us to expand with a new office wing (right) and an additional 8 members of staff. We plan to recruit a further 20 over the next 6 months.
