

UNLOCK YOUR POTENTIAL WITH INVESTORS IN EXCELLENCE

What do all these organisations have in common?

They have all achieved the Investors in Excellence (IiE) Standard and are reaping the benefits. IiE is an internationally recognised framework for co-ordinating improvement activity and achieving recognition. Working with organisations across 30 sectors, including BMW, Siemens, Atkins and Vodafone, it is a recognised symbol of success.

Working towards the IiE Standard will improve business performance, increased customer satisfaction and allow government strategies to be implemented in a cost effective way.

IiE On-line, our new highly practical web based tool, takes the grind out of self-assessment, making it easier for you to reach new heights.

What's different? Our expert housing sector knowledge and private sector expertise can really help your organisation improve and unlock its potential
